HAPPIER CAMPER RESOURCES

Can I pull a Happier Camper with an EV or Hybrid?

THE ANSWER IS YES!

There are many electric and hybrid vehicles that can pull our lightweight campers.

HOW IS THIS POSSIBLE?

Our campers are made out of fiberglass, which is an ultra lightweight and strong material that does not rot. Pull a Happier Camper without sacrificing space, style, and longevity.

Below is a list of both electric and hybrid vehicles that can tow our campers.

Please note that these towing weight capacities may vary by the vehicle's trim, year, and other specifications. Please confirm with your vehicle's manufacturer or manual to confirm the towing capacity.

ELECTRIC VEHICLES:

MAKE & MODEL	TOWING CAPACITY (LBS)	HC TRIMS THAT CAN BE TOWED
AUDI		
E-Tron	4,000	All models & trims
