## COMPACT KITCHENETTE W/ DRAWER FRIDGE CUBE

This new kitchenette is entirely self-contained. No more dealing with plumbing lines or city water hookups! It is a two piece modular set. The top includes a sink, cutting board, and fresh & gray water tanks. The bottom includes a drawer fridge cube.

## HC1 SUITE PRIVACY SCREENS

These screens are easy to install, adding functionality and privacy to the HC1 when camping. The lower half is designed with dense fabric for privacy, while the top half consists of mesh to allow for cross ventilation.

## SET OF HALF CUBES W/ INSULATED DRAWER UPGRADE

Sold as a pair, two half cubes are the same size as a regular Adaptiv cube, yet give you more flexibility for storage. Add the insulated drawer upgrade to access the space easier, and have a bit of insulation for your electronics or fruit!

## DRY FLUSH TOILET PACKAGE

This lightweight & portable toilet can be used indoors or outdoors, and it does not use any water or tanks. Instead, each toilet is equipped with cartridges that "flush" by sealing the waste in a plastic bag you can then throw in the trash (similar to a diaper genie).

## DRAWER FRIDGE CUBE

The Dometic Coolmatic CD 20L is a DC-powered drawer fridge installed within a Modular Cube. The open-concept drawer fridge allows for stacked and layering storage. Incredibly flexible and spacious, this fridge is completely powered by your camper's battery.

## LUXURY MATTRESS TOPPER

Adaptiv accessory granting you 3" of memory foam comfort on top of your Molded Base Form-Fitting Cushions. Simply unroll for bedtime, and roll back up to serve as a backrest during the day!

## HC1 SUITE EXTERIOR COVER

The exterior cover is a great way to protect your HC1 from fading, UV damage, and debris. Included are zipper openings to the side and rear door to easily access the interior of the camper. Travel bag included. This cover is not all-weather nor waterproof.

## STOW-AWAY TOILET PACKAGE

Our new stow-away toilet is stored inside a set of half cubes to save space. This is a fresh-water flush toilet that has a sealed valve to keep odors from escaping the holding tank.

## NIGHTSTAND KIT

This kit includes a Countertop Lid that sits perfectly on top of the Deluxe Cube. The countertop lid doubles as a component that can fit in between cubes to start building a bed. The deluxe cube allows easy storage without lifting the lid.

## COOLER ICE BOX MODULAR CUBE

Want to have a cooler, but need to save space? This cube is just what you need! High-density foam insulates the cube to allow the inside to stay colder longer. The lid of this cube doubles as a cutting board.

## INSULATED DRAWER CUBE

This modular cube has a drawer that opens from the side to easily access the interior without lifting up the lid. The inside is insulated to keep a cooler temperature. This is the perfect upgrade to store electronics, fruit or even beverages.

## PATIO BASE

Bring your tabletops outside with the patio base. Add a table leg and tabletop to the patio base for an outdoor table. Additionally, you can place the patio base inside the opening of an Adaptiv Cube to create a cocktail-height table.
